Order Source Tagging Definition

Order Tagging	Order Source
ASEAN Link	Orders submitted to Bursa via ASEAN Link gateway
DMA	Orders submitted to Bursa by a DMA client of the Participating Organisation (õPOö). If orders submitted by a DMA client can be identified as algorithmic orders, then they should be tagged as Algorithmic orders.
Internet	Orders submitted to Bursa via internet (with or without Dealerøs Representativeøs intervention) by a client of a PO.
Algorithmic	Orders submitted to Bursa via an algorithmic system. If the algorithmic system is owned by the PO, it must be tagged as Algorithmic orders. If the client is a DMA client and the PO is not able to identify that the clientøs orders are generated using algorithmic system, then the orders should be tagged as DMA orders.
Broker Assisted	Orders submitted to Bursa by a Dealerøs Representative of a PO.
